

FISCAL NOTE

HB 613 - SB 875

March 31, 1997

SUMMARY OF BILL: Allows local boards of education to contract for the management and operation of alternative schools with any other agency of local government or with private enterprise. Every school system in the state is required, under current law, to provide an alternative school for students in grades 7-12.

ESTIMATED FISCAL IMPACT:

MINIMAL

Assumes that local boards of education would not contract with private enterprises that could not provide the service for less than the local school board itself. Local boards of education that contracted with local government entities would simply experience a shift in revenues from one entity to the other.
